

SPI Test Reimbursement

In April 2015, the PATC-MS approved the formal creation of the reimbursement program for a portion of the cost of the Single Pitch Instructor (SPI) Course Test for Club members in good standing. Below are the guidelines and rules that govern this program.

A total of four (4) reimbursements may be given out per calendar year with a total budgeted amount not to exceed \$1,600. Applications will be accepted by the Club Secretary on a first-come/first-served basis beginning in January each year with the exception of the current year (2015). The program will be open to the first four (4) applicants to submit their applications this year (2015).

Applicants must: A.) have been a registered member of the PATC-MS for at least one (1) year prior to application AND B.) agree to lead a clinic within 6 months of the completion of the course on any climbing skill set with which they are comfortable.

Applicants will fill out a simple form agreement form to be provided by the Club (see link from webpage). This agreement will state that the Club will provide funds for the reimbursement of the certification once proof of completion and associated receipts are provided by the applicant. It will also state the duties of the applicant to fulfill their portion of the agreement in exchange for the reimbursement.

The EXCOM reserves the right to reduce or cancel this program at any time when deemed necessary for prudent Club financial reasons with the exception of any applications that have already been approved for funding.
